

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

30. (Previously Amended) An antibody or antibody fragment which is specific for and binds directly to the ED-B oncofoetal domain of fibronectin (FN).

31. (Previously Amended) An antibody or antibody fragment according to claim 30, which comprises a mammalian antibody-antigen binding domain.

32. (Previously Amended) An antibody or antibody fragment according to claim 31, wherein said antibody-antigen binding domain is of human origin.

33. (Previously Amended) An antibody or antibody fragment according to claim 30, which binds to FN containing ED-B after treatment of the FN with the protease thermolysin.

34. (Currently Amended) An antibody or antibody fragment according to claim 30, which binds directly ~~and only~~ to the ED-B domain portion of recombinant FN containing type III homology repeats which include the ED-B domain.

35. (Previously Amended) An antibody or antibody fragment according to claim 30, whose binding to B-FN is inhibited by the ED-B domain.

36. (Previously Amended) An antibody or antibody fragment according to claim 30, which binds to B-FN from human, mouse, rat, chicken, and any other species in which the ED-B domain is conserved.

37. (Previously Amended) An antibody or antibody fragment according to claim 30, which binds to B-FN without treatment of the FN with N-glycanase.

38. (Previously Amended) An antibody or antibody fragment according to claim 30, having a variable heavy (VH) chain region of the sequence (aa 1 Glu – aa 98 Arg inclusive in Figure 1) (SEQ ID NO: 9) and the CDR3 sequence Ser Leu Pro Lys (SEQ ID NO: 12).

39. (Previously Amended) An antibody or antibody fragment according to claim 30, having a variable heavy (VH) chain region of the sequence (aa 1 Glu – aa 98 Arg inclusive in Figure 1) (SEQ ID NO.: 9) and the CDR3 sequence Gly Val Gly Ala Phe Arg Pro Tyr Arg Lys His Glu (SEQ ID NO:1).

40. (Previously Amended) An antibody or antibody fragment according to claim 30, having a variable light (VL) chain region of the sequence (au 1 Ser – aa 90 Ser inclusive in Figure 1) (SEQ ID NO.: 10) and the remainder of the CDR3 sequence as Pro Val Val Leu Asn Gly Val Val (SEQ ID NO: 13).

41. (Previously Amended) An antibody or antibody fragment according to claim 30, having a variable light (VL) chain region of the sequence (aa 1 Ser – aa 90 Ser inclusive in Figure 1) (SEQ ID NO.: 11) and the remainder of the CDR3 sequence as Pro Phe Glu His Asn Leu Val Val (SEQ ID NO: 14).

42. (Previously Amended) An antibody or antibody fragment according to claim 30, having a variable heavy (VH) chain region of the sequence (aa 1 Glu – aa 98 Arg inclusive in Figure 1) (SEQ ID NO.: 9) and the CDR3 sequence.

43. (Previously Amended) An antibody or antibody fragment according to claim 30, which, when measured as a purified monomer, has a dissociation constant (K_d) of about 6×10^{-8} M for ED-B FN.

44. (Previously Amended) An antibody or antibody fragment according to claim 30, which comprises an scF_v molecule.

45. (Previously Amended) An antibody or antibody fragment according to claim 30, which comprises a dimeric scF_v molecule.

46. (Previously Amended) An antibody or antibody fragment according to claim 30, which comprises CGS-1 or CGS-2.

47. (Previously Amended) A pharmaceutical composition comprising an antibody or antibody fragment according to claim 30, in an effective amount for binding thereof to a fibronectin ED-B-containing cell, and a pharmaceutically-acceptable excipient.

53. (Previously Amended) A diagnostic kit comprising an antibody or antibody fragment according to claim 30 and one or more reagents that allow the determination of the binding of said antibody or antibody fragment to a cell.

54. (Previously Amended) An antibody or antibody fragment of claim 30, which is isolated from a synthetic molecular library.

55. (Previously Amended) An antibody or antibody fragment of claim 30, which is not naturally occurring.

56. (Previously Amended) An antibody or antibody fragment of claim 30, in isolated form.

57. (Previously Amended) An antibody of claim 30.

58. (Previously Added) An antibody fragment of claim 30.
